

ADVOSENSE

Chief Technology Officer (f/m/x)

Advosense is Berlin based, an innovative team of three, on a mission to transform geriatric care. We are creating technology to provide our clinicians with the tools they need to provide quality care and to advocate for our elderly patients at the bedside and beyond. Advosense is developing a “smart” adult incontinence brief, using sensor technology to provide real-time notifications via web application about episodes of incontinence to caregivers worldwide. We are looking for an embedded system engineer with leadership experience to join our core team as a Chief Technology Officer to be an integral part of our journey to build the vision of Advosense.

Description:

As a member of the executive leadership team, the CTO is responsible for the overall supervision of technical development. The CTO will lead the research and development and execution of long-term technical strategies, working closely with and reporting directly to the CEO. The CTO is responsible for building, evaluating and leading the work of the technical team within the organization. Moreover, the CTO will develop the policies and procedures, budgets, create strategies to increase revenue and product development in a strategic, long-term growth mindset to remain competitive.

We are looking for someone to...

- Lead the development of our Class 1 medical device from our prototype to MVP
- Create and be accountable for our technical strategy and vision
- Build our product roadmap for market launch and be responsible for our product life cycle
- Scale and lead our in-house technical team
- Ensure compliance with policies and standards in accordance with data privacy and medical device regulations
- Help implement our solution and participate in testing our proof of concept for our product development prior to market launch and post market surveillance
- Enable learning and knowledge sharing across the organization, leveling up our engineering practices and mentoring other developers
- Be a part of the Advosense leadership team

If you have...

- Extensive experience working with software and hardware development in an agile fashion including:
 - Experience with web-based or hybrid software applications and
 - Experience with hardware sensors and IoT
- Applied the product development lifecycle in your own work
- Experience leading teams on technical projects
- A deep understanding of how to translate product and business visions into technical realities
- The quality of a great influencer and peer to peer leader with great communication skills - you love sharing your knowledge with others and helping them grow
- A willingness to take on varied challenges at an early stage startup and feel confident in your technical abilities

We'd love to talk to you! As a bonus, it would be nice if...

- You have industry experience in the healthcare or medtech space
- You have developed and launched a medical device that has been tested and used in the marketplace
- You are passionate about using technology to create simple tools to empower clinicians and to increase the quality of care they can provide to our patients
- You speak English and German

Would your friends call you?

- A curious person, excited about challenges and learning new things
- Autonomous, adaptable and resilient
- Someone who values open communication, can take feedback and can dish it out
- Reliable and empathetic
- Someone who knows how to have some fun

In return, we can offer...

- A product that could help clinicians worldwide and have an incredible impact on the quality of care and life of our patients
- A flexible work schedule
- A chance to develop and grow together with a hardworking, down-to-earth, and mission-driven team

At Advosense we are committed to equal employment opportunity regardless of race, color, ancestry, religion, sex, national origin, sexual orientation, age, citizenship, marital status, disability, or gender identity. Just bring yourself to work.

Please send over your portfolio or CV and 3-5 bullets about your relevant experience/interests and what makes you curious about working with Advosense to martina@advosense.com.
